

For more productivity:

Feed and discharge conveyor belts for your processing machine

Are you planning to automate a processing machine in your plant in order to optimise your production processes?

HIRSCHEIDER GmbH can support you by providing individual solutions:

feed and discharge conveyor belts for robot and portal automation plus numerous options – individually adapted to your machine.

FEED CONVEYOR BELT

Roller belt for variable diameters and lengths

Options:

- + **Centering device**
- + **Diameter control**
for the raw parts
- + **Length control**
for the raw parts
- + **Individual recovery**
for gripping or depositing by robots or portal grippers
- + **Designed for a broad range of parts**
for a range of diameters and lengths
- + **Testing equipment for finished parts**
- + **Marking station for finished parts OK / NOK**

Option examples for feed and discharge conveyor belts:

1) DISCHARGE CONVEYOR BELT
with optional marking station for OK / NOK

2) FEED CONVEYOR BELT
with lifting and shaft inspection
for diameter and length

3) CONVEYOR BELT
with cassette conveyor chain for variable diameters
and lengths

4) DISCHARGE CONVEYOR BELT
Roller belt with width adjustment for variable
diameters and lengths

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not only end processing machines and centres but also the appropriate testing technology to test surfaces and dimensional accuracy and completeness.
