

ENDURO V 400

End processing machine for the double-sided machining of steel bars

With the Enduro V 400 you save precious time!

Processing operations, such as milling, drilling, centring and thread cutting are carried out on both sides, in one work cycle, and without manual intervention. Custom requests are possible at any time.

Stable clamping device,
adjustable opening stroke for reduced cycle times.

**Workpiece diameter ranges:**

15 – 80 mm
20 – 120 mm

Workpiece length ranges:

2 000 – 6 000 mm
2 000 – 8 000 mm
2 000 – 12 000 mm

Possible operations:

- Squaring
- OD-turning
- Bevelling
- Thread cutting
- Turning round ends
- Thread rolls
- Centring
- Face milling

ENDURO V 400 Details

**For squaring
and bevelling:**

Longitudinal slide unit with
a combination tool head

**For use with thread cutting
or rolling heads:**

Longitudinal slide unit

**For face milling
and chamfering:**

Cross slide unit

Step chain belt with a longitudinal
roller conveyor and left-aligned
workpiece limit stop for processing
the first side, and a right-aligned
workpiece limit stop for processing
the second side.

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not only end processing machines and centres but also the appropriate testing technology to test surfaces and dimensional accuracy and completeness.

P.S.: Less paper! More digital!
