Sustainable spare parts supply –

so that your machine continues to run reliably.

The availability of suitable spare parts is often limited, especially for older machines. With our spare parts service for Hirscheider, WERAG, and DUAP machines, you can be sure that you will be optimally supplied even after decades.

We supply spare parts in original equipment manufacturer quality – precisely manufactured, durable, and reliable. This keeps your proven machine in operation and your production running smoothly.

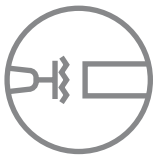

Your benefits at a glance:

- + Supply of spare parts and service**
also for older Hirscheider, WERAG, and DUAP machines
- + Spare part identification**
even if machine documentation is no longer available
- + On-site service:**
Inspection, service, requirement analysis directly at your location

From idea to installation – everything from a single source!

Since 1974, Hirscheider has been synonymous with reliable solutions in mechanical engineering. Our endfinishing machines combine robust construction with maximum manufacturing precision. Whether you need a customized solution, individual components, or a complete system, we offer the experience and technologies that will ensure your success.

Processing options:

- Spotfacing
- Chamfering
- Turning round ends
- Centring
- OD-turning
- Tapping
- Thread rolling
- Face milling

Typical areas of application:

- Hydraulic cylinder tubes
- Gear shafts
- Cam shafts
- Gear racks
- Crankshafts
- Non rotationally symmetric components

*Your project
is our motivation.*

*We look forward
to receiving
your inquiry!*

Pütz Group – a strong association of specialists.

Our network of experts optimizes your production for maximum efficiency.
